

Put your trust in Canada's leader for  
Residential Lifts and Elevators

## Complete Home Accessibility Solutions for your Independence

In addition to being Canada's leading retailer of mobility and home health care equipment, Shoppers Home Health Care has one of the largest networks of dedicated elevating consultants and technicians, installing and servicing thousands of stair lifts, porch lifts and home elevators in homes across Canada.

With over 60 locations from Victoria to Moncton, we sell, rent, install and service all types of elevating, transfer and home access solutions. From the first in-home assessment to the final safety inspection, you can trust Shoppers Home Health Care to provide you with the best solution, tailored to your individual needs.

In-home assessments are free, so ask one of our customer service representatives today about how Shoppers Home Health Care can help you to rediscover freedom, safety and peace-of-mind in your own home.

## Regain the Freedom of Your Own Home

If you or someone you love is living with a mobility challenge, it is often the simple things in life that can cause the greatest difficulties. All around the home, from the kitchen to the bathroom, daily activities can become chores for anyone who uses a cane, walker or wheelchair.

The one feature of almost any home that will create new challenges and safety concerns is the stairs. Whether it is just one or two steps up to a porch, or a flight of stairs, each step can become a significant obstacle in your daily routine, sometimes to the point where moving home seems like the only solution for safety.

If you or your loved one is facing a decision like this, talk to Shoppers Home Health Care first. Our Lifts and Elevating Division can provide solutions for your home that will increase safety and the ability to live independently, without losing the comfort of the home in which you have invested so many years and memories.

## Stair Lifts

A flight of stairs in your home can become a major safety hazard for anyone with limited mobility. Many people find themselves cut off from half of their home when their strength or balance becomes a safety issue.

A stair lift from Shoppers Home Health Care is one of the most reliable solutions to take you smoothly and safely up and down your stairs.

Quiet, comfortable and easy to use, the track for the lift is installed on the stairs, not on the walls. In many cases, where the lift is needed for only a short time, we can even install a rental unit, removing the lift when it is no longer required.

Shoppers Home Health Care is Canada's leading installer of Stannah stair lifts, the world's largest and most reliable manufacturer of stair lifts. Curved or straight, there is a Stannah model to suit almost any staircase.

Talk to one of our customer service representatives today to arrange a free, in-home assessment.

## Porch Lifts

A porch is a beautiful feature on any home, but for someone in a wheelchair, even one or two steps can be a major barrier.

The easiest solution is to install a ramp. Shoppers Home Health Care carries a number of sturdy, lightweight modular or portable ramp systems.

When space is limited, a porch lift is the perfect solution. These discreet elevators can be added to your porch or deck and are safe and reliable, even throughout a Canadian Winter.

## Home Elevators

Although at first glance installing a home elevator may seem like a major alteration project, rest assured that Shoppers Home Health Care has over 20 years of experience working with the leading Canadian manufacturers of residential elevators. Our project managers and installation teams work with architects and engineers to install the right elevator for your home.

## Ceiling Lifts & Transfer Solutions

When caring for a loved one at home, transferring them from a bed to a chair or bathtub can be dangerous and may lead to back strain or other injuries.

From portable, powered lifters to a full ceiling lift and track installation, we can provide a solution that allows you to continue providing care in your home.
